- [Learn more about this recall](#)

**Description:** During air bag deployment in an accident, the driver's front air bag module may produce excessive internal pressure that could cause the inflator to rupture.

Inflator rupture could result in metal fragments striking the driver or other passengers, potentially resulting in serious injury or death.

**Remedy:** Vehicles affected by this recall are in Priority Groups 4, 5 and 6. Final remedy parts are not available for all groups. Final remedy letters were mailed by 7/31/2017 for Priority Group 4 vehicles and will be mailed by 9/15/2017 for Priority Group 5 vehicles and by 9/29/2017 for Priority Group 6 vehicles. When you receive your final letter, please make an appointment immediately with your authorized BMW center for your FREE replacement of the driver's front air bag module. 03/02/2017		BMW of North America, LLC	Manufacturer Safety recall issued NHTSA #17V-138 Recall # 17V-138:249 FRONT DRIVESHAFT Status: Remedy Available

Need more information about this recall? Find an authorized [BMW dealer](#), email [CustomerRelations@bmwusa.com](mailto:CustomerRelations@bmwusa.com), or call 1-800-525-7417

- [Learn more about this recall](#)

**Description:** The front driveshaft's universal joints may not have been produced to specifications. In rare cases, water and/or dirt may, over time, lead to corrosion resulting in noise or vibration. After prolonged driving under such conditions, the universal joint(s) may eventually break.

If the universal joint(s) broke, power to the front axle would no longer be available. However, power to the rear axle would still be available. After prolonged operation in such a condition, damage to additional components could occur, and continued driving would no longer be

possible. Depending upon traffic conditions and the driver's reactions, this could increase the risk of a crash.

**Remedy:** The remedy is available for some models. When you receive a letter informing you of this recall, please contact an authorized BMW center to schedule an appointment. The front driveshaft will be replaced free of charge.

## Glossary

[View Full Glossary](#)

### First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

### Manufacturer Recall

Automobile manufacturers issue recall notices to inform owners of car defects that have come to the manufacturer's attention. Recalls also suggest improvements that can be made to improve the safety of a particular vehicle. Most manufacturer recalls can be repaired at no cost to you.

### New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

### Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico.

Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

**Title Issued**

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
